Game Art

While the 3 playlists discuss the same basics, it's important to follow multiple sources as each one introduces new things or discusses the information with different approach.

Core Art Foundations

Blender Basics

Animation Basics 2

Bouncing Ball

Character Animation

Additional Info & Resources
here are some useful youtube channels to follow:
Blender Guru
CG cookies
CG boost
Flipped Normals

Some useful websites for references, inspiration and maybe courses:
Art Station
Pinterest

Some websites:
SketchFab (provide 3d models but make sure to check the license before any commercial use)
Maximo (provides 3d rigged characters and variety of animations)
FAB (it's unreal engine store but it has many useful assets)
Poly Heaven (have many pbr materials and HDRI skies)

Texturing Basics
